Selecting the Program Year for Meeting Graduation Requirements

In meeting program requirements for graduation, you must complete your program based on the requirements in effect for a particular academic year.

You may use the program requirements in effect during the academic year in which you:

- Started taking classes
- Initially enrolled in your program (if the program is still active)
- Changed your program
- Completed your program

You can find the different academic years (<http://www.wccnet.edu/learn/graduation/program-year.php>) on your program page (<http://www.catalog.wccnet.edu/current/academic-pathways/>).

Note: Returning students who have not taken classes at WCC for 2 or more academic years must meet the program requirements in effect at the time they are readmitted.

Discontinued programs

When a program is discontinued, you are given 3 years to complete the program, after which you must change to a different program. If you change programs, you should see an academic advisor to select appropriate courses and make course substitutions as necessary.

Course Substitutions

Courses required for a program of study may be substituted by other courses only with the approval of your academic advisor and the appropriate division dean. If you are seeking a course substitution, please make an appointment with your academic advisor to begin the process.

Once your advisor and the dean have signed off, the form will be filed with the Student Records Office and the requirement will be updated in your DegreeWorks.

Waiver of Program Requirements

Under extreme circumstances, a required course may be waived with the approval of your academic advisor, the division dean, and the vice president for instruction. Please meet with your academic advisor to see if you meet the qualifications.
