HEALTH ADMINISTRATION (AS)

Catalog Effective Term: Fall 2024

Program Code: ASHA

Credential: Associate in Science

High Demand Occupation, High Skill Occupation, High Wage Occupation

The Health Administration program provides students with the skills necessary for the entry-level employment in healthcare management. Students in this industry lead and oversee the operation of complex health care entities including hospitals, outpatient facilities, health care systems, pharmacies, long-term care facilities, mental health centers, fitness centers, insurance companies, schools and public health systems. Upon completion of this associate degree, the student should be able to: understand medical terminology, apply health care knowledge in economic analysis, accounting, and effectively communicate with team members.

Minimum Credits Required for the Program: 60
